

MatCatNet Scientific Module “Polymers” and Workshop “From Molecules to Functionalised Materials (2014)”

- Modern synthetic and spectroscopic methods in homogeneous and heterogeneous catalysis
- Modern theoretical methods
- Materials science

When: 06/09/2014 – 10/09/2014

Where: Ohrid
Macedonia

Conditions: Participation preferentially with a short presentation or poster on previous, present or planned scientific work

Application: Motivation, Curriculum Vitae, Certificates

Deadline: **15 July 2014**

In the framework of the DAAD program “Academic Reconstruction of South Eastern Europe” - “**International Masters and Postgraduate Programme in Materials Science and Catalysis**” (**MatCatNet**) funding will be granted for this event for 4th year BSc, Master or PhD students (with the possibility of gaining Credit Points – graded).

Please send your application to Prof. Dr. Evamarie Hey-Hawkins, hey@uni-leipzig.de or Dr. Alexandra Hildebrand, ahildebrand@uni-leipzig.de.
