

Workshop „ Transparent and Flexible Electronics“
28th September 2010
Linnéstraße 5, Leipzig, Germany

Agenda

- 9:00 Prof. Dr. Marius Grundmann
Welcome Address
- 9:15 Prof. Dr. Andreas Klein
TU Darmstadt, Germany
Surface and Interfaces of Transparent Conducting Oxides
- 10:00 Coffee break (Aula)
- 10:30 Prof. Dr. Christian Elsässer
Fraunhofer IWM, Freiburg, Germany
First-principles Modelling of Dopants at Interfaces in TCO Materials
- 11:15 Frederik Ante
Max Planck Institute for Solid State Research, Stuttgart, Germany
Physics and Technology of Organic Transistors with Reduced Dimensions
- 12:00 Lunch break (Mensa)
- 13:30 Prof. Dr. Norbert Koch
Humboldt Universität, Berlin, Germany
Transparent and flexible transistors with organic materials
- 14:15 PD Dr. Sibylle Gemming
Forschungszentrum Dresden-Rossendorf, Dresden, Germany
Transport in nanostructured materials
- 15:00 Coffee break (Aula)
- 15:30 Prof. Dr. Reinhard R. Baumann
Fraunhofer Institution for Electronic Nano Systems ENAS, Chemnitz, Germany
Solution Processing of Functional Materials by Printing Technologies
- 16:15 Prof. Dr. Thomas Riedl
Bergische Universität Wuppertal, Germany
Transparent Electronics for Active Matrix Displays
- 19:00 Dinner (Ratskeller Leipzig)
